

## Ahmad Faqiri

**Country:** Afghanistan

**Course:** Advanced Diploma of Telecommunications Network Engineering

**Institute:** TAFE NSW – South Western Sydney Institute, Lidcombe College

Ahmad Faqiri from Afghanistan joined TAFE NSW in 2009 and recommends it to other international students looking for a study destination in Australia.

“I recommend TAFE NSW to anyone wanting to improve their employment opportunities in a competitive job market.”

Ahmad received the TAFE NSW – State Medal for top marks in the Advanced Diploma of Telecommunications Network Engineering at TAFE NSW – South Western Sydney Institute, Lidcombe College.

The TAFE NSW – State Medal is awarded to students who achieve the highest marks in TAFE NSW for a chosen course, based on 2011 results.

The course teaches high-level practical skills and knowledge in telecommunications and information technology (IT) networks using internet protocol (IP) systems.

Ahmad believes TAFE NSW, as a vocational education provider, fulfilled all his expectations.

“TAFE NSW is a great pathway into the industry as it offers both knowledge and hands-on experience. The teaching facilities are excellent with well-equipped laboratories and classrooms. The teachers are experts, helpful and friendly at all times.”

Ahmad is extremely happy with the education he received and gladly recommends TAFE NSW as a study destination to others considering overseas study.

“I can easily recommend it to anyone who is interested in creating a professional career.”

In 2012 Ahmad completed a professional year in engineering.

TAFE NSW Institutes are the largest education and training provider in Australia and offer over 300 practical, work-oriented training courses in campus locations in Sydney and New South Wales.
