

Maroun El Kady

Country: Lebanon

Course: Diploma of Information Technology (Website Development)

Institute: TAFE NSW - South Western Sydney Institute, Padstow College

Just one month after arriving in Australia from Lebanon, Maroun enrolled at TAFE and went on to achieve a distinction in his Certificate 4 in Website Development. He went on to study a Diploma of Information Technology in Website Development, also gaining a distinction.

Maroun has developed many of his own web projects and his work can be found on restaurant menus, privilege cards and business cards as well as on website logos and banners. Maroun is also an accomplished cross country runner, winning numerous medals and trophies.

“It wasn’t easy being an international student but I soon gained confidence, developing my communication and website creation skills. With the help of my teachers I was able to develop many web projects. TAFE gave me a good overview of the IT industry and I gained a lot of experience. I am now doing my Bachelor of Information Technology and hope to continue on to a Masters Degree, using the skills I learnt at TAFE.”
